# ISKaM system Guide

1. After admission you can apply for a bed at the student dormitories. So go to the website https://iskam.utb.cz/

2. Next, click on the SIGN UP button in the top right corner.

3. Click on the „**click here**" link, which redirects you to the Registration page. (Even after successful admission process - before you arrive and enrol personally to Zlín, you are by this system considered as „**NOT a student**" because you do not have internal university credentials so do not argue here and pick „Not a student" option and proceed with registration.)
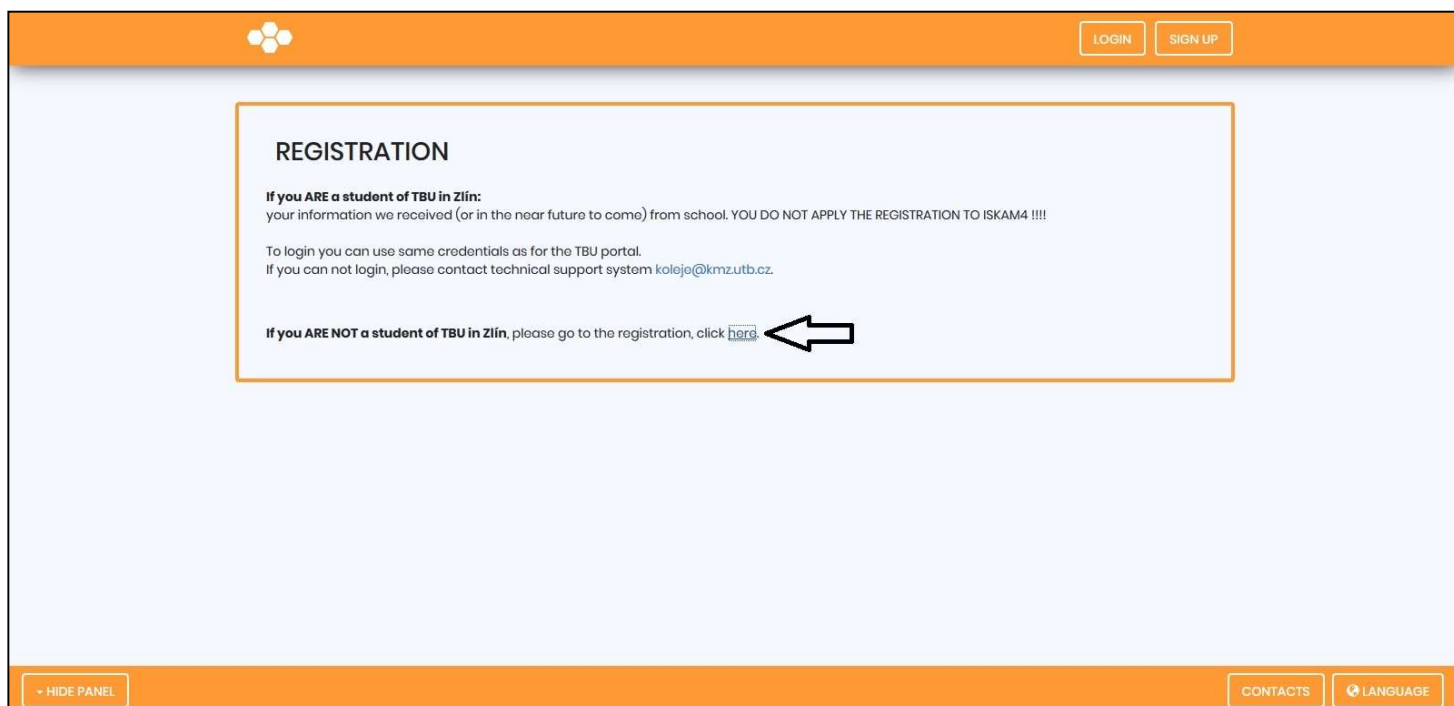

**4.** Fill out the Registration with your personal details and click the REGISTER button at the bottom.

5. The screen below will appear and you will receive a „Password activation" e-mail.

(If you cannot find your e-mail, check your SPAM folder.)

6. Once you receive your e-mail, click on the link which was send to you - It will redirect you to the ISKaM website again.
